CHRISTIAN KWAME DUODU

IT SUPPORT & DIGITAL SYSTEMS PROFESSIONAL

Kumasi, Ghana | WhatsApp: 0554453553 | duoduchristian36@gmail.com | LinkedIn

PROFESSIONAL PROFILE

Information Technology graduate with hands-on experience across technical support, software and web development, POS systems, router/Wi-Fi troubleshooting, CCTV support, digital infrastructure and end-user support. Experienced in supporting SaaS and business-system users, configuring and troubleshooting software, maintaining websites, installing digital equipment and solving operational technology problems. Brings additional strengths in business development, customer success, sales, digital marketing, graphic design, motion/video production and client communication. Currently developing deeper capability in networking, systems administration, cloud engineering and cybersecurity.

CORE TECHNICAL & BUSINESS COMPETENCIES

- IT Support: Windows/user support, software installation, configuration, diagnostics
- Networking: Router/Wi-Fi troubleshooting, LAN basics, IP/DHCP/DNS concepts
- Business Systems: POS systems, Retill, SaaS onboarding, inventory/sales systems
- Hardware & CCTV: PC/peripherals, displays/TVs, printers, CCTV troubleshooting
- Web Development: Frontend/backend, CMS integration, websites/web apps, deployment
- Programming/Tools: JavaScript, Python, TypeScript, Bash, Node.js, SQL, CSS, Git/GitHub
- Operating Systems: Windows, Kali Linux/Linux, macOS
- Business Development: B2B prospecting, needs discovery, product demos, sales follow-up
- Customer Success: Onboarding, user support, relationship management, issue coordination
- Creative/Marketing: Graphic design, motion graphics, video editing, digital campaigns

PROFESSIONAL EXPERIENCE

Versified Technology Ltd | Marketing Team Lead | Business Development, Customer Success & IT Operations | Jan 2023 - Present | Hybrid

- Manage day-to-day operations of the Kumasi office and oversee office IT equipment and gadgets, including setup, basic maintenance, troubleshooting and coordination of repairs or specialist support when required.
- Support Retill and other software users with onboarding, product usage, troubleshooting and operational issues, translating technical issues for non-technical users and coordinating resolution where required.
- Drive B2B prospecting, product demonstrations, sales follow-up, business development, customer success and relationship management across prospective and existing business clients.
- Lead and support marketing execution for Versified and Retill, including campaign planning, graphic design, motion design, promotional videos, digital content and sales-support materials.

Freelance / Self-employed | Software Developer, IT Support & Digital Systems Consultant | Jan 2023 - Present | Hybrid

- Build and maintain websites and web applications for businesses and support clients with digital systems, technical troubleshooting, online presence and business technology setup.
- Provide hands-on client IT support: software configuration and troubleshooting, POS implementation and inventory-data setup, router/Wi-Fi connectivity and CCTV troubleshooting, and TV/display equipment setup.
- Diagnose user-reported problems, explain solutions to business owners and end users, maintain websites and digital platforms, and coordinate specialist support where required.

Synbizgh / Synbiz Technology | Digital Systems & Business Process Support | 2024 - 2025

- Worked across SME digitisation and process-improvement initiatives involving dashboards, workflow automation, digital invoicing/reporting, client-management interfaces and operational efficiency, while also supporting practical technology and hardware-related needs within a home and electrical-appliances business environment.

Website: synbizgh.com

Versified Technology Co. Ltd | Project Intern - Web Development | Sep 2021 - Nov 2022 | Ghana

- Completed a web-development internship, contributing to coding and assigned development projects while building practical experience in debugging, software problem-solving and digital solution delivery.

TECHNICAL & CLIENT PROJECTS
